The plans were prepared by the developer of Tract 29001 and represent approximately \$95,000 in highway improvements, Chace said.

The proposed streets will provide access to 54 new homesites in the vicinity of Del Amo Boulevard and Central Avenue. The roadway improvements will be constructed by the developer under County Road Department supervision, it was pointed out. Work will consist of excavating and grading the roadway, constructing pavement, curbs, gutters, and sidewalks, Chace said.

## Mansion Plans Run Into Snag

SACRAMENTO — Several decades of nothing have proven quite expensive to California taxpayers—approximately half a million greenbacks have been spent on precisely that.

The nothing consists of studies, designs, and more studies and designs for a governor's mansion, a residence which may never be a fact, at least according to the present law.

Governor Ronald Reagan recently vetoed a bill providing \$750,000 for construction of a mansion bounded by 14th, 15th, N and O Streets in Sacramento, a site set aside by legislators for that purpose.

IN STEP with his "cut, trim and squeeze" budgeting, Reagan found a group of concerned citizens willing to finance the project, but there was a catch in the plan.

The group wants to build in the Carmichael area, and wants the residence to be known as the "official" governor's mansion.

Assemblyman George N. Zenovich (D-Fresno), reports that an opinion by the Legislative Counsel states it would be illegal for the State

to accept as the official Governor's Mansion the proposed privately financed Governor's residence in Carmichael.

"I THINK it is obvious that the private donors are making their contributions for a private residence for Governor Reagan and not the official Governor's Mansion," he said.

The legislature could, however, delete that section of the Government Code establishing the above-mentioned site and pass another bill consenting to the Carmichael site.

Although saving the taxpayers \$750,000, it is doubtful that will happen.
